Ramzi Bougdar

AI Application Developer I PrestaShop & Shopify
E-commerce Expert I Full Stack

10 years of experience

My specialty: AI × e-commerce, AI integrated into online stores

End to end: Analysis → Estimation → Specifications → Development → Validation → Deployment

Automation: From repetitive tasks to workflows

About

A full stack developer, since 2026 I have been building applications with AI: agents, automation, content generation, document analysis, internal tools and AI integrated into e-commerce stores, with Claude.

I build on solid B2C and B2B e-commerce expertise with PrestaShop and Shopify: custom modules, integrations and connections to APIs, web services, data and logistics flows. Beyond code, I lead projects from end to end (analysis and estimation, technical and functional specifications, project management (delivery and client side), deployment) and I manage technical teams.

Languages

French (Native / bilingual) · **English** (Professional)

Skills
